Company Description

Hanwool Technology produces Antenna & Antenna related products Since 1999. Hanwool technology accumulates our own know-how and unique ability. Accumulated know-how and technologies, develop our competitive power. Also, we apply this to every stage of production to maintain high quality antenna. Thank you.

Product

OMNI Antenna

Function and Usage :

HW-MULTI-GW-RSMA

Standards : LTE / 5G(Sub-6)

Frequency(MHz) : 700-960 / 1,427-1,576 / 1,720-2,200 / 3,200-4,300 / 4,800-5,200

HW-TABG3-RSMA

Standards : WiFi 2.4G, 5G

Frequency(MHz) : 2,412-2,484 / 5,200-5,800

HW-UWB10G-RSMA

Standards : UWB(Ultra Wide Band) without WiFi6

Frequency(MHz) : 3,000-10,600 / rejection band : WiFi6(5,925-7,125)

Marketing and Selling Points :

- * OMNI-Directional Antenna
- * Customizable band
- * Apply to router / SMA type devices
- * Multi band Antenna
- * Hinged connector

MIMO Antenna

Function and Usage : HW-MULTI-MIMO-2M

Standards : LTE / 5G(Sub-6)

Frequency(MHz) : ANT1 690-960 / 1720-2,170 / 2,300-2,700 / 3,200-4,300 / 4,800-5,200

ANT2 690-960 / 1720-2,170 / 2,300-2,700 / 3,200-4,300 / 4,800-5,200

Marketing and Selling Points :

- * MIMO(Multiple-Input and Multiple-Output) Antenna
- * Customizable cable and connector
- * Multi band Antenna
- * Apply to Car / Wall / Glass
